Zahra Khansari

Frontend Developer | React & TypeScript

Almere, Netherlands | +31 6 8536 2003 | zarakhansari@gmail.com
zara-portfo.vercel.app | github.com/zarakhansari | linkedin.com/in/zahra-khansari-31471362

PROFESSIONAL SUMMARY

Frontend Developer building responsive React and TypeScript applications with REST API integrations, persistent state, and accessible UI patterns. Brings product-management experience translating user needs into workflows and Figma designs. Based in Almere; fluent English and Dutch B2.

SKILLS & TECHNOLOGIES

Frontend: React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite, React Router
Development: Responsive Web Design, Mobile-First Development, Reusable Components, State Management, Context API, REST APIs, Asynchronous Data Fetching, Local Storage, Form Validation, Web Accessibility
Tools & Workflow: Git, GitHub, Figma, Vercel, Agile/Scrum

SELECTED FRONTEND PROJECTS

Zaravia Travel Planner
zaravia-woad.vercel.app

React, TypeScript, Tailwind CSS, Leaflet, REST APIs | github.com/zarakhansari/zaravia

- Integrated Open-Meteo, Geoapify, and Unsplash APIs into a travel planner with city search, 5-day forecasts, nearby attractions, and interactive Leaflet/OpenStreetMap maps.
- Limited redundant API calls with debounced search, caching, and in-flight request deduplication; implemented loading, error, and retry states plus localStorage-based destination saving.

Zizo Couture E-commerce
zizocutoure.vercel.app

React, TypeScript, Tailwind CSS, Context API, React Router | github.com/zarakhansari/zizocutoure

- Built a 10+ page storefront demo with React Router; managed cart actions, quantities, and order totals through Context API, persisting cart state across visits with localStorage.
- Implemented reusable product UI, responsive navigation, and controlled checkout/contact forms with client-side validation, error feedback, and an order-confirmation flow.

Mehdi Zoufan Artworks
mehdi-zoufan.vercel.app

React, TypeScript, Tailwind CSS, React Router | github.com/zarakhansari/MehdiZoufan

- Created a responsive Persian RTL artist portfolio with category filtering, artwork detail modals, and a full-screen exhibition experience with mouse and keyboard navigation.
- Implemented semantic labels and keyboard controls for gallery navigation; used WebP assets, lazy-loaded images, and self-hosted Persian fonts.

WORK EXPERIENCE

Frontend Developer — Independent Projects
Jan 2025–Present

Independent Portfolio Projects, Remote

- Delivered 5+ portfolio applications from product ideas and Figma designs to deployed React/TypeScript interfaces; managed version control with Git/GitHub and releases on Vercel.

Internal Manager / Product Manager
Mar 2021–Jan 2023

Dermatology Clinic, Tehran, Iran

- Designed and managed a clinical web application by translating staff and patient needs into practical workflows and Figma mockups; developed prescription and financial modules that reduced patient waiting time by 15%.

Product Manager
Jan 2020–Jan 2021

McKay Global, Tehran, Iran

- Conducted market and competitor research, translated user needs into product requirements, and prioritized improvements in an Agile/Scrum environment.

Organization & Systems Analyst
Feb 2017–Jun 2019

Kayson Inc, Tehran, Iran

- Analyzed business processes, defined performance KPIs, and built a Microsoft Access salary-management system for a company subsidiary.

EDUCATION

Master's in Industrial Management
University of Tehran, Tehran, Iran

Bachelor's in Industrial Engineering
Khaje Nasir Toosi University of Technology, Tehran, Iran
